1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-I: Next-Gen Intelligent Computing and Pervasive Networking

20/11/2026
Session-1

Session Chair- Dr. R. Sridevi, JNTUH
Session Co-Chair- Dr. Maniza Hijab (MJCET)

Session Incharge- Mrs Naimoonisa Begum (9703350236)
Room No- 1106, Block 1

Time: 02:00PM – 3:30PM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	02:00-02:15	13	Design and Implementation of a Decentralized Exchange (DEX) for Token Swapping on Ethereum	Pavankumar Patil
2	02:15-02:30	144	Explainable Trust-Adaptive Human-in-the-Loop Framework for Industrial Automation Systems	Daraqshan Fatima ; Shifa Chishti; Ommi Zainab Alquaiti; Mohammad Pasha; Mohd Umar Farooq; Zareen Begum
3	02:30-02:45	163	Fine-tuned Feature Enhancement & Extraction EfficientNetB5 with a Deep Classification Head (FFEE-EffNet-DeepHead) Hybrid Model for Emotion Detection	Arhan Agarwal; Saira B. Shaik; Ayush Goyal; Sanju Tiwari; Emmanuel Umoh
4	02:45-03:00	186	Text-Based Emotion Detection Using RoBERTa: A Comparative Study	Husna Mehween; Sayyada Mubeen
5	03:00-03:15	255	Fairness Under Distribution Shift: An Empirical Cross-Model Analysis on Tabular Benchmarks	Mohammed Abdul Rafe Sajid; Mukassir Ahmed Farooqui
6	03:15-03:30	260	Carbon-Intelligent WWPA-DRL: Achieving Net-Zero Cloud Operations Through Multi-Objective Sustainable Scheduling	Saleha Farha; Kummari Venkatesh; J Madhavan

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-I: Next-Gen Intelligent Computing and Pervasive Networking

20/11/2026
Session-2

Session Chair- Dr. Y.Vijay Latha Reddy, Vardhaman College of Engineering.
Session Co-Chair- Dr. Uma N. Dulhare (MJCET)

Session Incharge- Mrs Rana Ambareen (9908119190)
Room No- Conference Room, Block 5

Time: 03:30PM – 5:00PM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	03:30-03:45	271	Leveraging AI for Personalized Learning to Improve Educational Outcomes in Underserved Schools	D R.Shri Varshini
2	03:45-04:00	315	SkillRadar: A Unified AI-Driven Career Command Center for Predictive Skill Gap Analysis and Semantic Interview Simulation	Pallavi Lanke; Asrith Sai Lakshmipatruni; Pavani Durga Loya; Chaitanya Sai Sindhu Koki; Rahul Kotagiri
3	04:00-04:15	379	An Integrated AI Framework for Emergency Department Decision Support: Simulation, Counterfactuals, and Reinforcement Learning	Mohammad Pasha; Nuha Mushtaq; Tabassum Fathima; Zareen Begum ; Mohd Umar Farooq ; Nazia Tabassum
4	04:15-04:30	393	Beyond Retrieval: Execution Intelligence for Hierarchical Agentic Retrieval	Mohammed Moid; Syed Liyaqat Ahmed Ali; Syeda Fayeqa Nabeel
5	04:30-04:45	396	PoisonGuard: Cross-Learning Based Detection of Data Poisoning Attacks in Distributed Machine Learning Systems	Mohammed Hussain Abid Khan; Mohammad Sanaullah Qaseem ; Mohammed Abdul Rawoof; Anam Shaik; Sarah Ali
6	04:45-05:00	404	IncidentMind: A Retrieval-Augmented Architecture for What-If Recovery Decision Support in Incident Managementfor IoMT-Enabled Healthcare Systems Using Deep Learning	Sowjanya P; Rahil Ahmed

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-III: Mechatronics, Intelligent Automation, and Sustainable Energy Systems

20/11/2026
Session-3

Session Chair- Dr C Thirmal (VNRVJIT)
Session Co-Chair- Dr.Viquar Mohiuddin (MJCET)

Session Incharge- Dr Bharath Kumar Talluri (7386030306)
Room No- 1107, Block 1

Time: 03:30PM – 5:00PM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	03:30-03:45	212	Optimization of Surface Roughness in BEMRF of Ti6Al4V Alloy Using RSM and Machine Learning	Fadia Naji
2	03:45-04:00	267	Thermal Stability and Flammability Behavior of Composite Materials Using TGA and Flammability Tests	Aravind K
3	04:00-04:15	320	Smart Electric Vehicle Battery Charging Through Photovoltaic Technique For Home Energy Management System	Dr.Hari Naidu; Vaishnavi Khedkar
4	04:15-04:30	506	Experimental and Explicit-Dynamic Crashworthiness of a Honeycomb Structured Automotive Front Car Bumper	Suvarna Kumar Veernau; Md Viquar Mohiuddin; Mohammed Ameer Ali
5	04:30-04:45	507	An Assessment of Glass Fiber Reinforced Composite Open Pressure Vessel using Simulation and ANOVA	Dharam Singh; Aneesa Firdos; Khaja Azher Ali Siddiqui; Venkata Narsireddy

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-I: Next-Gen Intelligent Computing and Pervasive Networking

21/11/2026
Session- 4

Session Chair- Dr.M.A.Jabbar (Vardhaman College of Engineering)
Session Co-Chair- Dr. Fahmina Taranum (MJCET)

Session Incharge- Mrs Sumrana Siddiqui (9966347700)
Room No- 1107, Block 1

Time: 10:15 AM – 11:45 AM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	10:15-10:30	444	Cognitive Edge-Cloud Security: A Resource-Aware IDS For IoT	Mohammad Pasha; Reifa Zain; Nazia Tabassum; Khaleel Ur Rahman Khan; Mariyam Malik; Mohd Umar Farooq
2	10:30-10:45	445	Supply Chain & Material Passport Tracking: An Optimized Framework using Merkle-AVL (M-AVL) Tree Architecture	Mohammad Pasha; Khair Unnisa; Nazia Tabassum; Mohammed Sirajuddin; Safia Khanam; Mohd Umar Farooq
3	10:45-11:00	446	DT-FedStorm: A Digital Twin-Assisted Federated Reinforcement Learning Framework for Proactive Broadcast Storm Prevention in High-Density VANETs	Mohammad Pasha; Syeda Umaima Amatul Mateen ; Mohd Umar Farooq; Nazia Tabassum
4	11:00-11:15	449	GNN-StormShield: Graph Attention Network and Blockchain-Based Trust Scoring for Adversarial Broadcast Storm Suppression in Vehicular Ad Hoc Networks	Mohammad Pasha; Syeda Aashna Fathima; Mohd Umar Farooq
5	11:15-11:30	468	A Comparative Analysis of Indirect Prompt Injection Vulnerabilities in Commercial Large Language Model Agents	Alisha Ahmed
6	11:30-11:45	512	Edge-Based Smart Intravenous Infusion Monitoring System Using ESP32-CAM, TFMini-S LiDAR, and Servo-Assisted Flow Control	Syed Shah Omer Hussaini

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-II: Microelectronics and Embedded Systems

21/11/2026
Session-5

Session Chair- Dr. K. Jaya Sankar (Methodist College of Engineering and Technology)
Session Co-Chair- Dr Nazia Parveen (MJCET)

Session Incharge- Dr Salma Fauzia (9963102953)
Room No- 1106, Block 1

Time: 10:15 AM – 11:45 AM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	10:15-10:30	136	Design and implementation of 16 bit single cycle MIPS processor	RPVG Ashok Reddy; Thilak Sirisani; Siddavatham Vishnu Vardhan; Shaik Ayesha; Nagiripati Munendra; Shaik Ghouse Lazam
2	10:30-10:45	218	Design and Analysis of a Threshold Inverter Quantization Comparator in 90 nm CMOS Technology	Chandrasekhar E; Talpa Sai Sri Charan Puvvula; Devi Keerthana Peruri; Shanthan T
3	10:45-11:00	230	Smart and Secure Mutual Authentication Protocol for Low-Power IoT Devices	Madhurya Lingam; Varun Dyapa; Mani Charan Reddy Vavilla sai; Phani Vidyadhar R
4	11:00-11:15	237	Implementation of Enhanced 4-BIT ALU Using BNN Employing VTEAM for Advanced AI/ML Processing	MD Noorullah Khan; E Srinivas; Sami Ahmed; Mohd Rafeh Alaf Khan; Bushra Fatima Masih
5	11:15-11:30	287	A Hybrid Attention-Based Multi-Scale Edge U-Net for Robust Road Extraction from Satellite Images	Dr.Dasari Subhashini
6	11:30-11:45	374	UAV-Based Multi-Sensor Integrated Survivor Detection System for Post-Disaster Search and Rescue Operations	Shirisha Palnati

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

21/11/2026
Online
Session-6

Session Chair- Dr Salman Abdul Moiz (UOH)
Session Co-Chair- Dr Gouri R Patil (MJCET)

Session Incharge- Mrs Rubeena Rab (9121330165)

Time: 10:15 AM – 11:45 AM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	10:15-10:30	138	Design and Development of a Charge Pump for a Full-Custom Phase-Locked Loop for Bluetooth Applications using SCL180nm Technology	Chinthareddy Satvika; Nagateja Adulapuram; Mohd.Z.Jahangir; Ponnala Srinidhi Reddy
2	10:30-10:45	199	Benchmarking Primality Testing Algorithms: A Bibliometric and Computational Study	Vandna Paul
3	10:45-11:00	353	An Explainable TabTransformer Framework for Medical Device Risk Assessment Using FDA Regulatory Records	Sandeep Deshmukh
4	11:00-11:15	452	Deep Hybrid Learning for Sentiment Analysis of Text Reviews	Shubhangi Saxena; Mohammed Nadeem; Tabrez Ali Khan; Mohammed Talha

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-IV: Applied Computational Technologies and Interdisciplinary Applications

21/11/2026
Session-7

Session Chair- Dr. Sanju Tiwari (Sharda University, Noida)
Session Co-Chair- Dr Asrar Ahmed (MJCET)

Session Incharge- Mrs Razia Begum (9700010555)
Room No- Conference Room, Block 5

Time: 10:15 AM – 11:45 AM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	10:15-10:30	436	Uncertainty-Aware Explainable CNN for Brain Tumor Classification Using ResNet50, Grad-CAM, and Monte Carlo Dropout	Mohammad Pasha; Sabina Amreen; Mohd Umar Farooq; Nazia Tabassum; Safia Khanam; Syeda Raziuddin
2	10:30-10:45	448	Explainable AI-Based Multimodal Interview Assessment Using LPU-Accelerated SemanticAcoustic Fusion	Mohammad Pasha; Rahath Sufiya; Nasir Ahmed;Mahabubul Haq Atif
3	10:45-11:00	491	Deep Learning Methods for Traffic Violation Detection- A Review for Smart Road Safety Solutions	Shubhangi Saxena; Mohammed Nadeem; Tabrez Ali Khan; Mohammed Talha
4	11:00-11:15	493	Applied Computational Intelligence for Next-Generation Smart Infrastructure: A Comprehensive Review of AI, Digital Twins, Edge Intelligence, and Autonomous Self-Healing Systems	Mohammed Abbu Bakar; Ayesha Fatima
5	11:15-11:30	500	Toward Earlier Referral: Sequential Risk-Trajectory Modeling for ASHA Collected Antenatal Care Data in Low-Resource Settings	Aayaan Shahwaiz Shaik Mohammed; Afiya Fatima; Vijayalata Y
6	11:30-11:45	503	Non functional requirements trade-offs and conflicts in software engineering: a systematic review of multi objective optimization approaches and decision making frameworks	Purvi Sankhe; Minakshi Ghorpade; Monisha Linkesh; Pratibha Prasad

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-IV: Applied Computational Technologies and Interdisciplinary Applications

21/11/2026
Session- 8

Session Chair- Dr. Sanju Tiwari (Sharda University, Noida)
Session Co-Chair- Dr. Syed Shabbeer Ahmad (MJCET)

Session Incharge- Ms. Syeda Shaista Naqvi (7893765497)
Room No- 1107, Block 1

Time: 12:00 PM – 1:30 PM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	12:00-12:15	82	LegalBuddy: A Retrieval-augmented Multilingual AI Framework for Civil Law Document Understanding	RPVG Ashok Reddy; Thilak Sirisani ; Siddavatham Vishnu Vardhan; Shaik Ayesha; Nagiripati Munendra; Shaik Ghouse Lazam
2	12:15-12:30	238	FYP: A Location-Based Local Product Discovery Platform for Enhancing Local Vendor Connectivity	Dr.Harpreet kaur; MD Adeeb; Ankur Sharma; Naveen Chadda; Ankita Chadda
3	12:30-12:45	258	Adaptive Multi-Objective Optimization for Engineering Management Systems: A Hybrid Lyapunov–Pareto Framework With Observer-Based Disturbance Compensation and Risk-Constrained Resource Allocation	Manish Gupta
4	12:45-01:00	283	Novel Fuzzy mRMR–Guided Binary Rain Optimizer for Accurate Cancer Prediction	Bibhuprasad Sahu; Swagattika Dalai;Abhaya kumar Panda; Amrutanshu Panigrahi; Abhilash Pati; P.V.Vinitha
5	01:00-01:15	295	NEUROSEARCH: A NEURO-SYMBOLIC CLINICAL DECISION SUPPORT SYSTEM VIA HYBRID RETRIEVAL-AUGMENTED GENERATION FOR MITIGATING MEDICAL AI HALLUCINATIONS	Karthik Jeyapal; Narasimhan Dasarathy
6	01:15-01:30	314	Ancient Tamil Inscription Recognition Using a Hybrid CNN–Transformer Deep Learning Framework	Omana J

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.

1st International Conference on Next-Gen Computing: Converging Microelectronics and Mechatronics for Transformative Solutions (ICCMM-26)

In Collaboration with IEEE Hyderabad Section

Track-II: Microelectronics and Embedded Systems

21/11/2026
Session- 9

Session Chair- Dr. Jyoti Singhai (NIT, Bhopal)
Session Co-Chair- Dr. M. Mohd. Sabir Hussain (MJCET)

Session Incharge-Dr Maliha Naaz (9885443688)
Room No- Conference Room, Block 5

Time: 12:00 PM – 01:30 PM

S.No.	Time Slot	Paper ID	Paper Title	Author Names
1	12:00-12:15	391	Approximate 4:2 Compressors for Energy-Efficient Edge-AI Multipliers on the Zynq-7000 FPGA	Kazi Nikhat Parvin Murtujaali
2	12:15-12:30	392	Energy-Efficient AES-256 Architecture for Secure Communication in Low-Power IoT and Embedded Systems	Dr.Vandana; M Nithin; J Yamani; K Nandini; V Harigopal
3	12:30-12:45	411	Design of a High-Throughput Parallel Compute-In-Memory Architecture for Multi-Bitwise Operations with Popcount-Based Similarity Detection	Chevula Sivamani; Dharmini Vikas; Byagari Panav Paartha; Rajendar Sandiri
4	12:45-01:00	422	Harris Hawks Optimization-Based 2-D FIR Filter with CSD/CSE Multipliers for Efficient VLSI Design	Venkata Krishna Odugu; Harish Gade; Anirudh Reddy R; Merina Jaladi; Bapuji Banothu
5	01:00-01:15	504	A Review of Ultra-Low-Jitter Phase Locked Loop Architectures for RF, mmWave, and 5G Systems	Subhanvali Shaik;G.M Anitha Priyadarshini; S Thulsi Prasad
6	01:15-01:30	527	A Compact 2-Bit Reconfigurable Intelligent Surface with Phase Control for Ka-Band Wireless Communications	Shaik Asrar Ulhaq; Mohammed Abdul Raheem Khan; Mohammed Khaja Uddin Ahmed; Mohammed Abdul Haseeb; Nazeerunnisa Qureshey

General Guideline: PPT should contain major contribution since the presentation time will be 12 minutes and 3 min for question & answer.
